
BRAVE HEARTS

THE NEW ZEALAND CARDIAC STORY

**Celebrating
the Kiwi Pioneers of
Cardiac Medicine**

Hosted by

Developed by

We invite you to visit a new interactive exhibit profiling pioneering Kiwi heart clinicians and the bravery of their patients, developed by the Auckland Medical Museum Trust with support from the Auckland University of Technology (AUT).

Brave Hearts explores the science of how the heart does its amazing work. The exhibition celebrates the innovation, creativity, and success of New Zealand medical pioneers who repaired the hearts of newborn, children and adults.

Come and be inspired by the science of heart disease and understand the contribution of New Zealanders past, present and future.

Historical objects and the remarkable stories associated with them (e.g. the first heart lung bypass machine at Green Lane Hospital, various pacemakers), will be accessible, many for the first time. Novel comparative objects include the hearts of reptiles, birds and animals including the heart of an elephant.

Onsite	Saturday 02 June to Sunday 24 June 2018
Open	Mondays to Fridays: 10am to 4pm Saturdays and Sundays: 11am to 5pm
Location	Eastern edge of Halsey Wharf, next to the ANZ Viaduct Events Centre
Cost	Free
