

# The Mechanics of the Heart

LEVEL 4

01

Highlight the 4 different valves and add arrows to show the blood flow through the valves Fill in the blanks with the correct name:

Pulmonary Artery

Aorta

Left Atrium

Left Ventricle

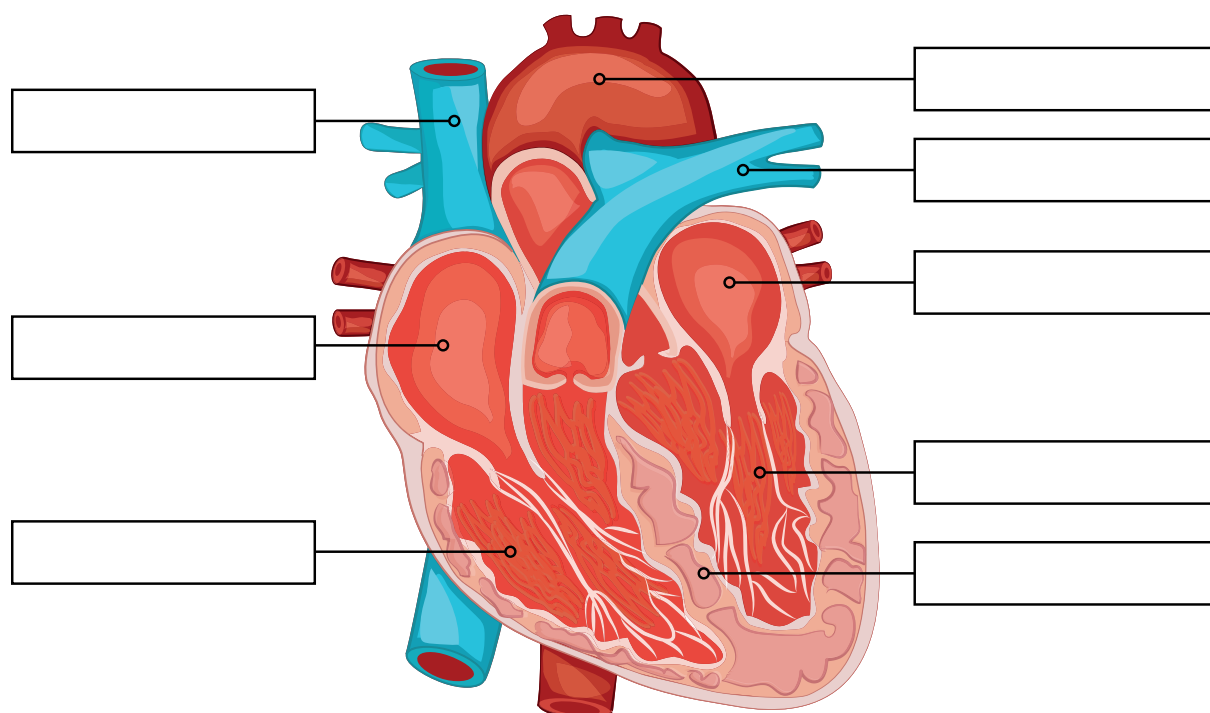

Ventricular Septum

Right Ventricle

Right Atrium

Superior Vena Cava

Note: left and right, refers to the left and right of your heart, not of the picture.

Observe and describe the differences between the different animal hearts displayed and a human heart:
